

SEE YOURSELF ON TV

The mirror that becomes a wall-mounted TV at the touch of a button

At first sight Mirror TV looks just like a mirror. It has a slim profile and a wide choice of frames to suit any surroundings. Then you hit the remote control and suddenly it's not a mirror - it's a flat-screen TV.

It shows a pin-sharp picture from its built-in TV tuner, satellite, cable, DVD or external PC. It can even have its own built-in multimedia computer,

so you can access emails or internet, play MP3 audio or MPEG video files, or go large on your favourite games. Switch it off and it's a mirror again.

Mirror TV is available with 20" to 55" Hitachi plasma or LCD screens, from £1,456+VAT. For more information contact MirrorMedia on 0870 386 6333 or go online to www.mirrormedia.com.

Small Miracle

With the ARCHOS AV 500 Mobile DVR you can record your favourite TV shows and watch them on the go

It may be pocket-sized, but the ARCHOS AV 500 Mobile DVR is hugely talented. With it you can record directly from your TV or DVD and play it back on the 4-inch colour screen. The AV 500 comes with either 30GB, 60GB or 100GB, and the largest storage size will allow you to store up to 400 hours of video, 250 movies or one million photos.

Thanks to the integrated scheduler, you can plan your TV programming in advance and the AV 500 will automatically control your TV or satellite receiver to record the programme with crystal clear quality and stereo sound. Or you could attach the AV 500 to a digital camcorder and shoot up to 12 hours of personal videos. Or why not store up to 55,000 songs?

The options with the AV 500 are endless. It really is the ultimate entertainment centre for the man on the move. To find out more about this small miracle, call Archos on 0870 609 1263.

CLEAR BENEFITS

Why Optimax is clearly the affordable choice for laser eye treatment

If you're considering saying good bye to glasses or contact lenses, you need to know that you're getting the treatment best possible. That's why you need Optimax.

Optimax is the UK's largest laser eye specialist, with 18 clinics nationwide and experience of around 200,000 treatments - more than double that of any other provider. What's more, it's affordable. Prices start at just £595 per eye with a 0% interest-free credit option. With Optimax consultations are performed by the treating doctor and cost £60. At Optimax your safety is our priority, which is why we use the latest state-of-the-art lasers and provide a free 24-hour aftercare service for your peace of mind. Treatment takes just minutes and you can be back at work within a day or two without glasses or contact lenses.

The benefits of naturally clear vision and the changes in lifestyle and self-image are endless. Call now on 08705 143314 for your free information pack about this remarkable procedure or register online at www.optimax.co.uk, quoting reference MF/ED/1005.
